

3rd

XMAS

The Third Xiamen Symposium on Marine Environmental Sciences

Jan. 9-11, 2017

Xiamen University, Xiamen, China

Final Abstract Call

On-line abstract submission **extended to Oct 14, 2016**

<http://mel.xmu.edu.cn/conference/3xmas/>

XMAS
Xiamen Symposium on
Marine Environmental Sciences

The Changing Ocean Environment: From a Multidisciplinary Perspective

Sessions & Workshop

General Session 1: Physical oceanic processes: dynamics and physical-biological-biogeochemical interactions

General Session 2: Marine & estuarine biogeochemistry

General Session 3: Biological oceanography & global change

General Session 4: Marine environment, ecosystem & sustainability

Special Session 1: Ecosystem under multiple stressors

Special Session 2: Changing ocean environment: from the sedimentary perspective - processes and records

Special Session 3: Size matters or not, particles export in marine environments

Special Session 4: Biogeochemical cycling of trace elements in the ocean: GEOTRACES and beyond

Special Session 5: Ocean-atmosphere interaction, multi-scale climate variability and their implication for biogeochemical processes

Special Session 6: The ocean's energy cascade and mixing

Special Session 7: Coastal assessments: From implementation to impact: understanding the gap

Special Session 8: Marine public education

Special Workshop: The use of assessments: Knowledge transfer and results interpretation

Satellite Workshop: Marine wildlife ecology and conservation

Keynote speakers

Dr. Peter G. Brewer
Senior Scientist
Monterey Bay Aquarium Research
Institute

Dr. Richard A. Feely
Senior Scientist
NOAA Pacific Marine Environmental
Laboratory

Dr. Dennis McGillicuddy
Senior Scientist
Department of Applied Ocean Physics &
Engineering
Woods Hole Oceanographic Institution

Dr. Mary Jane Perry
Professor
School of Marine Sciences
University of Maine

Dr. Jonathan P. Zehr
Distinguished Professor
Institute of Marine Sciences
University of California, Santa Cruz

Student Activities

Best Student Presentation Award

Present your research to compete for the XMAS Best Student Presentations. 5,000 RMB prize will be awarded to each winner.

Student Night

Come and get together for a social night for students to network. Enjoy friendship, enjoy music, enjoy science and life.

Meet Scientists

A special event will be arranged for students to meet scientists. Interact face-to-face with scientists in your fields, and even find an opportunity for future research, post-graduate study, or post-doctoral positions.

Campus & Museum Tour

Enjoy the beauty and diverse culture of the XMU campus and museums, e.g., Maritime Museum, Museum of Biology, Museum of History, and many more.
